

We are looking for : HADOOP DEVELOPER

WHO WE ARE

BRUSCH SERVICES is a Romanian software company, part of Connections Consult group, starting 2021, with a long history on both the Romanian and European IT market. We built our position around delivering quality outsourcing and staff augmentation services to our clients, covering all specific technical profiles of a software development lifecycle (project management, business analysis, IT architecture and design, development, testing, support and maintenance).

WHAT YOU NEED TO DO

- Build distributed, reliable and scalable data pipelines to ingest and process data in real-time;
- Load data from different datasets;
- Fine tune Hadoop applications;
- Configure and maintain enterprise Hadoop environment;
- Defining Hadoop Job Flows/ Implement data workflows using Hadoop ecosystem;
- Design and implement column family schemas of Hive/Impala within HDFS;
- Assign schemas and create Hive/Impala tables;
- Develop efficient Hive/Impala scripts;
- Assess the quality of datasets for a Hadoop data lake;

WHAT YOU NEED TO KNOW

- At least 5 years of professional experience in Business Intelligence solutions – Data Warehousing, ETL, Reporting and Analytics;
- Data modelling experience with OLTP and OLAP;

- At least 2 years of experience with Hadoop engines;
- Experience on Spark SQL, Scala;
- Expertise on the java essentials for Hadoop;
- Good knowledge of concurrency and multi-threading concepts;
- Good knowledge of SQL, database structures, principles, and theories;
- Experience in working with complex data structures;
- Capable to meet deadlines and work within virtual teams in matrix organizations;
- Good English;
- University degree in Computer Science or related technical field;
